JUDSON'S
Simple Dyes for People
REGISTERED
are undoubtedly the most useful article ever offered to the public.

Anyone can Use them.

Anything can be dyed with them in a few minutes without soiling the hands. In England "Judson's Dyes" are as "Household Words." Articles of clothing that have been put aside as faded and useless, may be made nearly equal to new, by merely following the simple directions appended to each bottle of Dye.

NAMES OF COLORS.

Magenta	Mauve	Violet	Scarlet	Green	Blue
Pink	Crimson	Brown	Canary	Orange	Blac

PRICE SIXPENCE PER BOTTLE,
May be had of Druggists and Storekeepers throughout the world; or wholesale of

DANIEL JUDSON & SON,
19a Coleman street, London.

N.B.—A small bottle of color will dye 12 yards of bonnet ribbon,

SEE THAT YOU GET JUDSON'S SIMPLE DYES

the wonderful popularity of which has caused numerous inferior imitations, which are calculated to injure both buyers and sellers.

Ask for our Catalogue of instructions how to use the Dyes for twenty different purposes

TO THE UNFORTUNATE
NEW REMEDIES, NEW REMEDIES.

Dr Gibbon's Dispensary,

616 KEARNEY STREET, NEAR Commercial, San Francisco. Established in 1854, for the treatment of Sexual and Seminal Diseases, such as Gonorrhea, Gleet, Stricture, Syphilis, in all its forms, Seminal Weakness, Impotency, etc. Skin Diseases (of years standing) and Ulcerated Legs successfully treated.

DR. GIBBON has the pleasure of announcing that he has returned to this State, after an absence of one year during which time he visited all the principal Hospitals of Europe, among them those of Dublin, London and Paris. The following celebrated Hospitals of London are among those visited by the Doctor: Guy's, High street, Borough; St. Bartholomew's, Smithfield; St. Luke's, Old street; St. Mary's, Camb. Place, Pad.; Lock, Harrow Road: University, Gower street; Westminster, Broad Sanctuary; Charing Cross, Agar street, Strand; London, Whitechapel Road; Royal Free, Gray's Inn Road; King's College, Portugal street

DR. GIBBON has spared neither time nor money in seeking out new remedies, and has returned with increased facilities for the alleviation of human suffering.

Horrible Diseases.

How many thousands of persons, both male and female are there who are suffering out a miserable existence from the effects of secret indulgences, or from virus absorbed into the system. Look at their pallid, emaciated and disfigured faces, and their broken down constitutions, disqualifying them from the happiness of marriage or of the enjoyment of life. In this horrid situation thousands suffer until death closes the scene. Let parents, guardians, friends, attend to those who are suffering with any of these horrible, life-destroying maladies—see that they are cared for, and cured before it be too late. Send them immediately to DR. GIBBON, a physician who has made private diseases his especial study for years, who is certain to cure the most inveterate cases without mercury or any injurious drugs. It is important to those afflicted, or to those who are interested in the welfare of their friends, to be careful of the many pretended Doctors who infest all cities, publishing their skill in curing all diseases in a few days, imposing upon the public by using the names of eminent physicians from Europe and other places. Be therefore careful, and make strict inquiry, or you may fall into the hands of those charlatans.

Seminal Weakness.

Seminal Emissions, the consequence of self-abuse. This solitary vice, or depraved sexual indulgence, is practised by the youth of both sexes to an almost unlimited extent, producing, with unerring certainty, the following train of morbid symptoms, unless combatted by scientific medical measures, viz.: Sallow countenance, dark spots under the eyes, pain in the head, ringing in the ears, noise like the rustling of leaves and rattling of chariots, uneasiness about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintances, a disposition to shun society, loss of memory, hectic flushes; pimples and various eruptions about the face, furred tongue, fetid breath, coughs, consumption, night sweats, monomania and frequent insanity. If relief be not obtained, should apply immediately, either in person or by letter, and have a cure effected by his new and scientific mode of treating this disease, which never fails of effecting a quick and radical cure. Dr G. will give One Hundred Dollars to any person who will prove satisfactorily to him that he was cured of this complaint by either of the San Francisco quacks.

MARRIED MEN.

Of those who contemplate marriage, who are suffering under any of these fearful maladies, should not forget the sacred responsibility resting upon them nor delay to obtain immediate relief.

DR GIBBON is responsible, and will give to each patient a written instrument, binding himself to effect a radical and permanent cure, or make no charge.

Cured at Home.

Persons at a distance may be CURED AT HOME, by addressing a letter to Dr Gibbon stating case, symptoms, length of time the disease has continued, and have medicine promptly forwarded, free from damage and curiosity, to any part of the country, with full and plain directions for use. By enclosing $15 in currency or $10 in coin, in a registered letter through the Post-office or through Wells Fargo & Co., a package of medicine will be forwarded by express to any part of the Pacific Coast.

Address Dr J. F. Gibbon, 616 Kearney street, corner, Commercial, San Francisco.—Post office box 252.

Remember to put BOX 252 on the letter.

Consultations FREE.

☞ Correspondents will please inform Dr Gibbon that they read his advertisement in the British Colonist.

Medical.

CURES AND COMFORT FOR THE BED-RIDDEN.
—BY—
Holloway's Ointment.

This wonderful Ointment acts like magic in relieving curing old sores, wounds, bad legs, ulcers and eruptions of the skin; when rubbed on the surface it penetrates and purifies each tissue on its passage, and exerts the most wholesome influence over the internal structures It heals by cleansing all animal fluids with which it comes in contact, and thereby promotes a sound and permanent cure.

Gout and Rheumatism.

To sufferers from the racking pains of Rheumatism and Gout this Ointment will prove invaluable. After fomentation with warm water the soothing action of this Ointment is most remarkable; it seems at once to lessen inflamation, ease pain, reduce the swelling, restore natural circulation, and expels the disease. For the above complaints Holloway's Ointment and Pills are infallible spe.

Diptheria, Bronchitis, Sore Throats, Coughs and Colds.

his class of diseases may be cured by well rubbing th Ointment, three times a day, upon the throat, chest and back of the patient. It will soon penetrate and give immediate relief In all stages of Influenza, Colds and Bronchitis, this treatment may be followed with efficiency nd safety—indeed, it has never been known to fail.

All Varieties of Skin Diseases, Scrofula and Scurvy.

This Ointment is a certain cure for Ringworm, Scurvy Scrofula or King's Evil, and the most inveterate skin diseases to which the human race is subject. They cannot be treated with a safer or more speedy remedy than Holloway Ointment, assisted by his celebrated Pills, which act opowerfully on the constitution and so purify the blood that these disorders are completely eradicated from the system, and a lasting cure obtained

Dropsical Swellings.

Beware of this dangerous and stealthy complain which frequently creeps upon us by slight squeamishness or trifling jaundice, of which little or no notice is taken until the legs begin to swell. The cause of the evil must be looked for in the liver and stomach, therefore set to work earnestly by taking Holloway's famous Pills according to the printed instructions and rubbing the Ointment very effectively over the pit of the stomach and right side where those organs lie. Most dropsical cases will readily yield to the combined influence of the Ointment and Pills.

Piles, Fistulas, and Internal Inflammation.

These complaints are most distressing to both body nd mind, false delicacy concealing them from the knowledge of the most intimate friends. Persons suffer for ears from piles and similar complaints when they might se Holloway's Ointment with instant relief, and effect heir own cure without the annoyance of explaining their ailment to anyone

Disorders of the Kidneys, Stone and Gravel

Are immediately relieved and ultimately cured if this Ointment be well rubbed twice a day, into the small of he back, over the regions of the kidneys to which it will gradually penetrate and in almost every case give immediate relief; but perseverance will be necessary to effec a rough cure.

Both the Ointment and Pills should be used in the following cases:—

Bad Legs,	Cancers,	Scalds,
Bad Breasts,	Contracted and	Sore Nipples,
Burns,	Stiff Joints,	Sore Throats,
Bunions	Elephantiasis,	Skin Diseases
Bite of Moschetos	Fistulas,	Scurvy,
and Sand Flies,	Gout,	Sore Heads,
Coco-bay,	Glandular	Tumours,
Chiego-foot,	Swellings,	Ulcers,
Chilblains,	Lumbago,	Wounds
Chapped Hands,	Piles,	Yaws,
Corns, (Soft)	Rheumatism,	

Sold at the establishment of PROFESSOR HOLLOWAY 244 Strand, (near Temple Bar,) London; and by all respectable Druggists and Dealers in Medicines throughout the civilized world, at the following prices; 1s 1½d, 2s 9d, 4s 6d, 11s, 22s, and 33s each Pot.

*** There is a considerable saving by taking the larger size

N.B.—Directions for the guidance of patient in every disorder are affixed to each Box wj5-1ycow

EXTRAORDINARY
CURE OF A COUGH.

The following letter has been received from WILLIAM BOARDS, Esq., an extensive agriculturist and land agent, residing at Edmonton, Middlesex:—

"Nightingale Hall, Edmonton.

"Dear Sir,—I have recently suffered much from a most violent cough, proceeding from a tickling in my chest, which no remedy, out of many I resorted to, could allay. My head was constantly aching, and my whole frame entirely shaken. Having seen the good effects of your Balsam of Aniseed in several members of my family, I purchased a small bottle, and, when going to bed at night, took a teaspoonful in two tablespoonfuls of water, just warm. The effect was immediate; it arrested the tickling in my chest, I slept well, and arose perfectly restored in the morning, with the exception of debility, arising from fatigue by incessant coughing for some days previous. My cough entirely left me, and has never returned. Having since heard of a lady in the neighborhood who for a long time had laboured under a most distressing cough, and who had resorted to every remedy within her knowledge, I sent the remainder of the bottle to her; and that long-standing, obstinate, and (as she thought) incurable cough, was perfectly cured. You are at perfect liberty to make what use you may please of this communication, as the contents are strictly true. I shall take every opportunity of recommending your inestimable medicine, feeling as I do fully assured of its efficacy.

"I am, dear Sir, yours very truly,
"WM. BOARDS.

"To Mr. Thos. Powell."

POWELL'S BALSAM OF ANISEED,

For Coughs, Colds, Influenza, Shortness of Breath, Asthma, Bronchitis, and for all affections of the Lungs, this old established remedy will be found invaluable.

The large sales and increased demand for this excellent and elegant preparation, which has followed its introduction into Australia, New Zealand and nearly all the British Colonies, has induced the Proprietor to still further extend the beneficial results of its use; and he begs to announce that he is now introducing its sale into Victoria, B. C., and has appointed Messrs Millard and Beedy, Wharf Street, Victoria, Wholesale Agents, through whom Chemists and Storekeepers can obtain their supply.

The Price is within the means of all classes.

Established 1824.

Prepared and Sold by THOMAS POWELL, 16, Blackfriars Road, London. Sold in bottles, by all Chemists and Patent Medicine Vendors throughout the World.

IMPORTANT CAUTION.—Observe that the Words, "THOMAS POWELL, Blackfriars Road London," are engraved on the Government Stamp affixed over the top of each Bottle, without which, none can be genuine.

THE BRITISH COLONIST.

Friday Morning, Nov. 27, 1868.

TO ADVERTISERS.

Transient Advertisements must be paid for in advance to insure insertion.

TO AGENTS.

Settlements of accounts will be required monthly, or the supply of papers will be discontinued. The daily and weekly issues will be furnished at the lowest cash rates and no exception will in future be made to this rule.

THE admission of this Colony to the benefits of Reciprocal trade with the United States would create, we believe, a largely increased demand for our lumber and coal, and open a door now hermetically sealed to the admission of many other of the native products of the Colony, without producing (what some may fear), an unfavorable effect upon the agricultural interests which are just springing into active life under the fostering influence of Protection. The splendid results of the Vancouver Coal Company's operations for the past six months furnishes a lesson which ought not to be lost upon our people; for if that company, with the heavy tariff of $1 40 on every ton of their product sent to San Francisco have successfully competed with the coal mines of California, and furnished an article so good that for certain purposes it cannot be dispensed with, it is quite reasonable to suppose that with the total abolition or a considerable relaxation of the duty, the bulk of the coal trade of the coast would fall to our share. The amount of coal imported into San Francisco from the 1st of January to 16th August, of the present year reached the figure of 85,000 tons, of which amount 18,900 were from Nanaimo, and 13,000 tons from Australia. Added to this there were 59,500 tons brought to San Francisco from the local or Mount Diablo mines, making a total consumption of 144,500 tons in seven months and a-half, or equal, in round numbers, to **$255,000** tons per annum. Now, at least **200,000** tons of this large amount, under Reciprocity, would be required of British Columbia, and the near approach of the Pacific Railroad to completion, and the rapidly increasing traffic in consequence, lead to the belief that within five years the quantity of the fossil consumed on the coast will double that now demanded. If, then, the raising of (say) 40,000 tons of coal last year at Nanaimo, and the exportation of two-thirds of that amount to San Francisco, under the unfavorable circumstances of a hostile tariff and large importations from abroad, has produced a result so unexpectedly profitable that £6 shares have risen in value to £9, and dividends amounting in the aggregate to 38 per cent. for the past year have been declared, what would naturally be the effect upon the Colony were the tariff suddenly reduced to a merely nominal rate or knocked off altogether? The price of Nanaimo coal would be correspondingly lowered immediately; the success of the company now working that vein would inspirit new associations of English capitalists to invest in the opening of the numerous seams known to exist but remaining as yet untouched on the Island and elsewhere; a healthy competition would spring up between capitalists who are satisfied with a return of 5 per cent per annum upon their investments, and who at the present time are glad to obtain on first-class home security 1¼ per cent.; and before the expiration of many months, where there is now one, we should have twenty thriving communities on the Island supported by the investment of capital in the working of extensive coal seams. What we have said of coal will apply with equal force to our lumber productions under a similar state of things. Burrard Inlet lumber is already esteemed so highly at San Francisco as to bring $2 50 more per one thousand feet than Puget Sound lumber. The demand has already reached several hundred thousand feet per month; but knock off the duty and ever bay, inlet and estuary on the mainland would soon resound with the ring of the axe and the whirr of the saw. Remit the duty on whale oil, and fishing companies in the Gulf of Georgia would be counted by the score, instead, as now, being represented by the lowest numeral; admit into California the ores, wool, hides, tallow, lime, fish, turpentine, cranberries, etc., of this Colony free of Customs' charges, and our growth would be as rapid as it would be unbounded. Victoria would grow and prosper as the great market for goods required by colliers lumbermen and agriculturists; and so far from any injury resulting to the latter class from the introduction of cereal and live stock from abroad, the local demand for Colonial produce of every description from the thriving communities which would spring up along the coast must immediately become so heavy that none but a dog-in-the-manger policy would deny to others the right of selling in a market which we had no means at our command of supply. Those who seek to draw a comparison between the condition of the farmers under Free Trade and their condition under Reciprocity, fail to remember that under the former system our produce was shut out of American markets while we opened wide our doors to the admission of theirs. Under Reciprocity we only favor the Americans where they favor us, and surely our farmers on the threshhold of their own market need never be undersold by foreigners.

Beware of Ambuscades!

Few people realize the fact that disease lies in ambush everywhere, ready to seize upon the weak. The strong pass through many perils in safety, the strengthless fall by the wayside.

It is amazing that the feeble should totter with uncertain steps over the face of the earth in danger every day of falling victims to the morbid influences by which we are all surrounded, when a tested and proven vegetable tonic, capable of endowing them with the vigor they need, is procurable in every city, town and settlement. It might reasonably be thought that after the twelve years' experience which the world has had of HOSTETTER'S STOMACH BITTERS, all would know that its effect is to prevent disease.

The fact is notorious that a dose of poison which will scarcely affect a vigorous man in perfect health will kill a weak one. Now, what is the cause of epidemic diseases? *Poison in the air.* At this season the atmosphere is surcharged with the seeds of intermittents, remittents, rheumatism, pulmonary disorders, billious complaints, and the like. Persons whose nervous system sore relaxed are the first to succumb to these distempers. Brace up the physical energies then, with this potential vegetable tonic. It is the most powerful recuperant which the botanic kingdom has ever yielded to patient research and experiment. Try it. The blindest disciple of the old medical dogmas will at least admit that a tonic and alterative, compounded of approved herbs, roots, and barks, can do no harm, while the testimony of thousands invites a trial of its virtues. *

HOLLOWAY'S OINTMENT AND PILLS—Ever useful.—The afflicted by illness should look their disease fully in the face and at once seek a remedy for them. A short search will convince the most sceptical that these noble medicaments have afforded ease, comfort, and oftentimes complete recovery, to the most tortured sufferers. The Ointment will cure all descriptions of sores, wounds, bad legs, sprains, eruptions, erysipelas, rheumatism, gout, and skin affections. The Pills never fail in correcting and strengthening the stomach, and in restoring a deranged liver to a wholesome condition, in rousing torpid kidneys to increase their secretion and in re-establishing the natural healthy activity of the bowels. Holloway's are the remedies for complaints of all classes of society. 14

The California Dry Dock Co.,
SAN FRANCISCO, CAL., U. S.

Notice to Shipowners, Agents, Consignees and Masters.

THE COMPANY'S DRY DOCKS, situate at HUNTER'S POINT, SAN FRANCISCO, are now Completed and in Successful Operation, and afford every facility for the Docking and Repair of all Classes of STEAM and SAILING VESSELS. The GRAVING DOCK, excavated on the Solid Rock, and finished in the most substantial manner, is of the following dimensions:

Extreme length, 450 feet; length on blocks, 416 feet; width at the top, 120 feet; depth, 30 feet; width at entrance, 90 feet. At mean high tide will take in a ship drawing 22 feet without lightening.

This Dock is fitted with a Caisson Gate, and is supplied with Two Powerful Centrifugal Steam Pumps, capable of pumping out the Dock in two hours.

The FLOATING DRY DOCK will receive Vessels of 1500 tons measurement and under. The Dock is 82 feet in width, and 210 feet in length; is built of the Soundest Oregon Pine, thoroughly braced and bolted, and is furnished with all the requisites for Docking a Ship successfully. Vessels taken up at all stages of the tide.

The Company feel warranted in stating that Repairs on Vessels can be made as advantageously in San Francisco in respect to Cost of Materials and Labor as in any other part of the world.

For Particulars, address,
JAMES POLLO , Superintendent,

THE BRITISH COLONIST.

Friday Morning, Nov. 27, 1868.

THE BARRATRY CASE.—The runaway schooner S D Bailey is owned by Capt Robbins (who was in command when she sailed from San Francisco in July last for Victoria,) and Capt Joseph Williams, formerly commander of the California, SS, running in this trade. Her measurement is a little less than 100 tons, and she had about 120 tons of goods on board at the time of sailing. Pickett & Harrison, San Francisco, acted as commission agents when she was receiving cargo, and they state that seven-eigths of the goods are insured, a few trifling shipments owned in Victoria only being excepted. The schooner first touched at Fanning's Island, where most of the cargo was landed and stored, the original marks being defaced. The vessel was then taken to Nelson, New Zealand, where she arrived August 25th. The remaining portion of the cargo—one-third of the original—was sold at auction at Nelson. Captain Robbins pocketed the proceeds of the sale and immediately left port on his schooner, announcing his intention of going to Melbourne. Arrangements were made for arresting him at the latter place, but the shrewd fellow changed his mind, and instead of going direct to Melbourne, was next heard of, October 3rd, at Lyttleton, giving out that he had come from Auckland.

SHARP RETORT.—A lady who cannot stand the severe strictures and large amount of ridicule upon the Grecian Bend and Pannier atrocities, follows up the fashionable follies of the men in a racy style, contending they have quite enough to do to correct their own absurdities in dress without meddling with those of the women. She says:—

'Look at them, girls, with their little hats, scarcely large enough to cover the small amount of brains they possess, their extremely short coats, that indicate a tailor rapacious for cabbage; their tight little pants, that certainly require the aid of a sausage stuffer to get into them; their *petite* little boots, in which they walk as though they were treading on a pavement of eggs, to say nothing of their little canes, little eye-glasses,——'

Perhaps in saying that much, she says enough.

NEW JAMES' BAY BRIDGE.—The contract for the construction of a new bridge across James Bay, on the site of the present structure, was awarded yesterday to Mr Emery, for the sum of $3,800, his being the lowest tender. The new bridge will be eighteen feet wide; 4 feet 6 inches higher at the Government street end, and 2 feet higher at the Birdcage Walk end than the present bridge, and will have a sidewalk for foot passengers railed off from the portion devoted to the passage of vehicles and horses. In the centre there will be a space of 40 feet, which will add to the appearance of the structure and lessen the cost of construction. The material will be all new; and the work, in Mr Emery's hands, will no doubt, be satisfactorily performed.

PUBLIC POUND.—The numerous complaints which reach us daily from every part of the city and suburbs of the depredations made by stray cattle, have induced us to inquire into the provisions of the Pound Act. It will be found, like many other legal acts, utterly inefficient as far as the principal grievance is concerned, for cows cannot be impounded under the Act; dogs, hogs, and goats being the only animals specified. It is said there was a special objection raised against cows being included, but whether it was by the Government, or by owners who live by their animals plundering private gardens, cannot be ascertained. It may be a slight satisfaction to the public to know that some of the members of the Corporation have been heavy sufferers.

MR JENNS' LECTURE.—Notwithstanding the inclemency of the weather, a much larger audience was present than could possibly have been anticipated. The character of the audience, composed as it was of all classes, shows how highly such lectures will be esteemed in this community, and how useful Mr Jenns will be when his great abilities and attainments are fully known. We shall endeavor to give a copious report to-morrow.

THE PRINCE VICTOR.—This vessel has finished discharging cargo, and will probably leave to-morrow for Burrard Inlet to load with lumber at Stamp's mill for Callao. The splendid condition in which the cargo of the Prince Victor has been delivered, ought to do away with local prejudice against vessels of her class.

THE What Cheer House, in San Francisco, that has been open for fourteen years, doing an immense business all the time, so that its proprietor has realized a heavy fortune, is now we understand closed up, because the damage done its walls by the recent earthquakes renders it unsafe.

THE ACTIVE, which sailed from Portland on Tuesday evening, had not arrived up to the hour of our going to press this morning. She was probably detained inside the Bar by the southeast gale encountered by the Wright on Friday.

THE St. John, N. B., oarsmen are determined to 'wear their blushing honors meekly.' They decline to endanger their well-earned reputations by rowing any future matches.

FOR NANAIMO.—The steamer G S Wright will leave for Nanaimo this morning. The Grappler and Emily Harris left for the same place yesterday.

Brighton, England, is to have an immense marine aquarium, twelve hundred and fifty feet long, and with proportionate width.

THANKSGIVING DAY was generally observed yesterday by American residents.

A FRENCH paper mentions that a gentleman whose cellar had been greatly infested with rats, found that they disappeared very [illegible] after he placed a cask of [illegible]

WANTED—Fifteen thousand of Hibben's Pacific Rail Road men for the consumption of Heywood's celebrated Pork Sausage, the Elixir of Life. It has been admitted by all the Medical Students of the Theatre Royal that Heywood's Pork Sausage is the only safe and sure remedy for all prevailing complaints. Three links fried nicely brown and taken internally every morning for breakfast will relieve hunger and restore the hair to its natural color. These unequalled and remarkable sausages are kept at all respectable first class Hotels, estaurants and Boarding houses. Go in, if you want black hair. *

OVERLAND RAILWAY.—There are 15,000 men employed in the construction of the Overland Railway. It is encouraging to those who are in constant communication with the Eastern Markets to know of such an early prospect of greater future dispatch. Had this line been completed three months since, we should have been able before this date, respectfully to call the attention of the public to the great variety of Styles, and the Choice Patterns of the best Sheffield Pocket Cutlery, Scissors, &c., ex 'Bolivia.'—T. N HIBBEN & Co. *

The International Four Oared Rowing Match between the Ward Brothers of New York, and the Paris Crew from St. John, N. B.

Yesterday the great international rowing match of six miles, for $3000, between the Ward Brothers of Newburgh, New York the representative four oared crew of America, and the St John, New Brunswick, crew, that so successfully represented that colony at the international regatta at P... is last year, was decided on the Connecticut river at Springfield, Mass. and resulted in the easy victory of the St John crew. The match originated out of a challenge from the Newburgh quartette of brothers to row any four oared crew in the world for from $1000 to $5000 a side over a course of five or six miles. This *defi* was taken up by the St John, New Brunswick crew, that had triumphed at the Paris regatta and after some negotiation the match was made to row for $15,000 a side over six miles, on the Connecticut river at Springfield, being the same course over which the Newburgh crew defeated a St John crew last year for $1000 a side. Both crews went into regular training and nothing could be finer than their physical condition when they stripped for the exciting contest yesterday.

Previous to the more important event of the day, a single scull race for a purse of $50 given by the Springfield Regatta Association, between John McKeil of Cold Spring, N Y and John O'Neil of Springfield, came off; two miles. It was won cleverly by McKeil in 15 min 51 secs; O'Neil's time being 16 min 5¾ secs. Then came the great race and both crews came to the post to contend for aquatic superiority. The betting, both during the morning and on the preceding evening, had been very heavy, all the money being invested at even. The backers of the St John crew fairly out bet the New York supporters of the Wards and at the start odds were offered on the former without meeting with many takers. The Judges in the winning stakeboat were Mr Stephen King of St John, for the New Brunswick crew, and Mr Tim Donohue of Newburgh, for the Wards; in the lower boat, Mr Charles E Potter of St John and Mr H Hasagen for the Wards. The referee was Charles M Brown of Orange County, N Y. The uniform of the St John crew was pink shirts and drawers, red and blue cap; of the Wards, white shirts and pink drawers, with white handkerchiefs round their heads. A drizzling rain fell during the entire afternoon, yet the banks of the river were lined with thousands of eager spectators. At precisely 12 minutes to 3 o'clock the boats drew into line and without the slightest delay the word 'Go' was given. The oars of both flashed into the water at the same moment and the boats sped on their way. The Wards at first drew perceptibly ahead and for three hundred yards they kept their lead amid the tumultuous shouts of their partizans. But before they had gone a quarter of a mile the long, regular, powerful stroke of the St John crew told a tale and quickly drawing on even terms, they in the few next strokes showed in front, and drawing steadily away, despite the almost superhuman exertions of the Ward crew, they turned the lower stakeboat, three miles down the river, six lengths ahead. From this point on their homeward course, they steadily increased their lead, and came home the easiest possible of winners by fifty lengths, their time for the six miles being thirty-nine minutes twenty-eight and three quarter seconds. The time of the Newburgh crew was forty minutes twenty-eight and three-quarter seconds, or just one minute behind the victors.—*New York Sun.*

The War on the Parana—Evacuation of Timbo by the Paraguayans.

(From the Buenos Ayres Standard, August 25th.)

The Venezia arrived yesterday morning with the unexpected news of the evacuation of Timbo by the Paraguayans, and its occupation by the Allies. The Parana entered an hour later, bringing details of this feat of arms, and the news that the Allies were concentrating at Pilar, preparatory to making the grand move of crossing the river Tebicuari and invading Paraguay proper.

The Brazilian transport Charrua, lashed alongside an iron-clad, and accompanied by three others, ran the gauntlet at Fort Timbo, receiving a heavy fire of artillery. The transport was nearly sunk by a ball which tore away two of her plates; but the injuries were repaired, and she took up her cargo of troops safely from Tayi, in company with the other exploring vessels.

Next day the enemy abandoned Timbo, leaving five guns, spiked, which have fallen into the hands of the Allies. It is supposed the rest of the guns (says the *Nacional*) have been either carried off by the enemy or thrown into the river. This is manifest.

The Allies, after occupying Timbo, marched several divisions into the town of Pilar and, according to the *Tribune* correspondent, sent a strong column inland, which had already crossed the Arroyo Nombuco, eight leagues south of the Tebicuari River. After the iron-clads had bombarded Fort Timbo on the 15th, it was rumored the garrison surrendered, but this was incorrect. On the same day the transport Joinville, being lashed to the iron-clad Brazil, forced the passage under a hot fire, losing some men and sustaining certain injuries. The *Republica* states that there is a lot of torpedoes and a chain across the river above Timbo. A small garison is left at Humaita to defend the stores of the Allies while the gunboats are carrying up troops to make a diversion at the mouth of the Tebicuari.

A BRUSSELS letter states that the health of the unfortunate Empress Charlotte is worse. Her lucid intervals are less frequent and of shorter duration than they were. In the night time she often gets up, turns her bed topsy-turvy, and throws the pillows out of the window.

FRED PAYNE has removed his Cheap Shaving Shop to the opposite side of Johnson street, just above the Miner's Saloon *

DELAYED DISPATCHES.

Eastern States.

NEW YORK, Nov. 10—A Warsaw special says the peasants of Volhoma have revolted against the Russian commander. They are led by the Catholic clergy.

California.

SAN FRANCISCO, Nov. 21—An Englishman named D Young committed suicide at the St Francis Hotel by swallowing a dose of laudanum.

The stock of wheat at present in this city has been carefully estimated at 1,000,000 centals.

The extensive flouring, planing and sawmills and dam, located at the outlet of Clear Lake, and known as the Bensley Property, were destroyed on Sunday morning last by a mob from the upper portion of the lake. The Sheriff and his deputies and several prominent citizens attempted to defend the property, but were seized by the mob, who then deliberately set fire to the mill and proceeded to demolish the mill dam. Large quantities of wheat, flour and lumber were destroyed. A requisition was made on Governor Haight for troops but too late to prevent destruction of property. The mill was one of the largest and best in the State. The alleged cause for the outrage was that the dam caused the overflowing of all the lands in the neighborhood of the lake and the owners had refused to abate the nuisance.

Cuba.

HAVANA, Nov. 20—Valmaicato has arrived with troops at Puerto Principe and will immediately open the chmpaign against the insurgents in conjunction with the forces under command of Colonels Lono, Campelto and Quiros. A telegram received from Valmaicato announces that 500 insurgents had presented themselves to him and been pardoned.

Hayti.

The following intelligence was received from Porte au Prince. After the bombardment of Jeremia Post, Salnave bombarded for five hours the town of Misogena, but was finally repulsed and many of his pickets on the shore surrendered to the revolutionists. All the foreign consuls had been notified by Salnave that he intended shortly to attack the town of Jacmel and St Mark.

An American man-of-war is looked for with anxiety. Several other nations have vessels in this port, but there has been no American vessel here since September.

The Government continues to purchase and sell coffee and mahogany for the purpose of raising revenue. The revolutionists are increasing in numbers.

South America.

NEW YORK, Nov. 20—Rio advices are received to October 26th.

An American street railway at Rio was opened to traffic October 9th, in the presence of the Emperor and an immense concourse of citizens. It is estimated that $20,000,000 were subscribed in Rio the first week in October as a loan to the Govern...nt, which only asked for $15,000,000.

Advices from Paraguay state that the Allies are beseiging Lopez at Villeta. Four iron clads passed the forts. There were 7000 Brazilian troops marching along the West side of the Paraguay river, with the intention of crossing to Asumcion and thence descending to Villeta to Lobez' rear.

SOUTH AMERICA.

By the way of Panama we have dates from Valparaiso to the 10th and from Lima to the 22d of October:

Chile.

Government has accepted the proposal of Mr Manuel Hodges for the establishment of steam navigation on the Biobo, between Concepcion and Nacimiento. There will be two steamers of the requisite capacity for passengers and cargo. The line is to be opened within eighteen months

During the month of August the Santiago and Valparaiso Railway netted the sum of $31,328 29.

Peru.

The people of Peru express great gratitude for the efforts made in California and the Atlantic States to succor them. Earthquakes are still felt along the coast, but no further danger is apprehended.

The destitute who suffered in the late disasters still continue to flock into Lima, where every aid is rendered them.

The yellow fever is again making its appearance in a serious manner in Lima, and great dread is entertained of its return.

Vote by Ballot and the Liberals.

(From the London Review, Oct. 10.)

The reign of Terror has begun in the counties. The doctrine of the right divine of landlords over their tenants' votes has broken out with fresh fury. "May I not do as I like with my own?" is the cry of "A Buckinghamshire Landlord," whose letter we print in another part of our paper. With a frankness, which might be characterized by another name, "A Buckinghamshire Landlord" declares that he is the keeper of his tenants' consciences. In a high-handed style, which might befit a Southern slave breeder, he declares his right to dictate their opinions. His notions of political liberty are so refined that he would make every one under him vote as he does. He not only owns the land, but wants to own the people. His idea of religious toleration is that his tenants shall be of the same creed as himself. In short, difference of opinion from himself is the one thing which "A Buckinghamshire Landlord" will not permit on his estate. These amiable sentiments cannot be considered as exactly new. They have simply formed the basis of every political and religious persecution which has afflicted mankind since the world began. When carried out on a large scale they have dethroned kings and ruined mighty states. "A Buckinghamshire Landlord," however, reads all history backwards, as witches say their prayers, to give them greater efficacy.

Nanaimo Affairs.—$25 to be Expended in Repairing Bridges!

EDITOR BRITISH COLONIST:—There are few of us, it is often remarked, who have not at some time or other occasion to feel thankful that our condition is not so bad as that of others. How far this aphorism is applicable to the people of Nanaimo, as a community, it would not be an easy matter to decide. Certain it is, that in some respects, we cannot be in a more wretched condition than we are. If we compare our state with that of other places in the Colony of equal importance, it will be found that we have been the most systematically neglected of all. For seventeen long years the inhabitants have bore every burden imposed upon them—their property, wages and food taxed to aid in keeping the Government in existence, and, in return, what has been received? What has been done towards furnishing us with the conveniences the town has required and still requires? If we except a Police Court, a Magistrate and a Constable, can anyone point out what better we are off for having had the fostering care of Government? Look at our roads and bridges, neglected and tumbling to pieces. Harbor buoys are carried away and not replaced, and all this habitual want of attention is suffered while a large sum is exacted from our shipping for harbor dues, &c. Our school has been nearly starved out, and what is deplorable to think of here, is a town of so many years standing without a school-house belonging to the Colony. The magistrate and constable are necessary of course to collect revenue, &c.; and as to roads and bridges, the Vancouver Coal Co. (whose money has made all the roads and bridges in town) according to the Chief Commissioner of Lands and Works, ought to attend to these, because they sold the adjacent town lots! This is a well-conceived idea, truly. Reasoning *a priori* is it just why the Company have nothing to do with the bridges or repairs. The streets are really the property of the public, since their dedication to public use and the establishment by them of regular thoroughfares. But the Chief Commissioner should bear in mind the fact that the Company first bought the land from the Government, and with equal propriety and reason they might have asked (though in vain) to have bridges built and roads made at the seller's expense! Besides, who gets the licenses from the teamsters? The Government, although neglecting to repair bridges, &c., don't forget to collect the 'road tolls.' It is time, surely, the people should have a little more to say as to how the public money should be expended, and that we had a Government better able to control the administration of affairs, so as to conduce to the general good, and which would imitate and carry out measures calculated to build up the country.

It has been rumored that the Magistrate here has received instructions from the Government to have the principal bridge in town (the planks of which are quite rotten) made safe for people to pass over. One or two children have fallen into the harbor through holes, out of which planks have dropped, and but for the timely assistance of an Indian with a canoe, one, it is feared, would have been drowned. This circumstance, doubtless, has 'awakened the Sleepers and lead them to *consider* the matter of putting the Bridge in order, and after spending half a day's valuable time (cost to the Colony about $150) in looking into the case, the conclusion arrived at is that the *enormous* sum of *twenty-five dollars* is to be expended somewhere about the aforesaid bridge, the money to be paid out probably by instalments; supposing there may not be so large an amount in the Treasury! This is a pretty liberal allowance considering the office of Postmaster-General at Nanaimo is performed gratuitously.

Joking aside, the small sum of $400 would make the bridge as strong and as firm as ever, and if the Government cannot afford to expend that amount in Nanaimo it had better 'shut up shop,' let the bridge fall and itself too.

GO AHEAD.

NANAIMO, Nov. 18, 1868.

An Important —?

EDITOR BRITISH COLONIST:—I noticed that a posse of police had been despatched the other day to burn the old cabins, clothing and other 'iktas,' on the Indian Reserve. This surely was not done a minute too soon. But has the same carefulness been manifested to the mansions and people on this side of the harbor? Has it been seen to that the houses were thoroughly cleansed and the clothing burned of those who have removed—and what has become of the clothing, blankets, etc., of those who have died? I do not wish to occasion alarm, but many believe that it has been taken away and stored in a house near Humboldt street. If so, we may have more of it. It would do no harm to institute inquiries into the matter.

ARGUS.

THE Registrar-General for Ireland's return exhibits a decrease of 46,811 acres in the total area under flax in 1868, compared with 1867. This decrease is spread over every county, with the exception of Wicklow, in which there is an increase of five acres. In the province of Ulster the decrease amounts to 42,408 acres. Of the entire number(1540) of scutching-mills in 1867, 1418 were in Ulster.

The Queen has conferred the honor of knighthood upon Mr Andrew Fairbairn, Mayor of Leeds. It will be remembered that when his Royal Highness the Prince of Wales opened the Art Treasures Exhibition in Leeds last May he was entertained at a grand ball by Mr Fairbairn in the Victoria Hall.

A London paper says that Mr Disraeli is very sanguine as to the result of the general election; not because he expects nominal supporters of himself to be returned, but because he has great faith in the Tory tendencies of the Tea-room Liberals. The hint is worth the attention of the constituencies.—*Scotsman.*

THE *Hants Telegraph* says that there is now living in the neighborhood of Portsmouth a soldier 85 years old, who fought at Waterloo, and has no pension.

"The King is Dead!—Long Live the King!"

A late file of the Madrid *Gazette* affords an apt illustration of the ease and rapidity with which the revolution in Spain was accomplished. On the 29th of September the *Gazette* appeared as usual, with the royal arms at the head of the first page, and containing an official announcement that 'Her Majesty the Queen, with her august family,' was still at San Sebastian, and that their 'royal health' was excellent. The next morning, without the interruption of a single day, the *Gazette* appeared with the royal arms displaced by those adopted by the revolutionary Junta, and not a word regarding the health of her 'august Majesty.' Nothing could more strikingly illustrate the suddenness and completeness of the collapse of the last Bourbon throne of Europe.

STRIKES IN THE TIME OF EDWARD III.—When Edward III. was rebuilding Westminster Palace, so many workmen and laborers withdrew from his works that he issued a proclamation that no one was to employ them under penalty of being sent to the Tower; but no difficulty with the men is recorded to have taken place here. This smooth sailing was, perhaps, due to the observance of certain articles drawn up by the trade, which we are about to notice. From Mr Riley's documents it appears that about three years after the 'strike' at Westminster the Corporation took the masons in hand. Solid, hard-handed, slow-thinking men they were, not particular about such trifles as the way their names were spelt, or whether they had any surnames at all; though not clumsy, very precise over the way they did their work, and determined that no one should do it in any other fashion. The mason hewers set themselves against the light masons and setters, and their disputes seem to have been very frequent and tiresome, when the Mayor undertook to investigate their case. He attributed their dissensions to the fact that their trade was not regulated 'by the government of folks of their trade,' and agreed to receive twelve of their representatives, who should draw up a code of articles by which, for the future, it should be ordered and ruled. Six masons on behalf of the hewers, and six on behalf of the light masons and setters attended this conference. The regulations, which were drawn up in Norman-French, were briefly these:—Every man might work in any branch of the trade, if skillful at it; 'good folk's were to be chosen and sworn to see that no mason undertook work that he was not able to do, under penalty of fine and expulsion. No one was to take work in—wholesale or by contract—if he had not ability to complete it in a proper manner. He who did undertake such work in gross was to take with him to the employer six or four ancient men of his trade to testify that he was able to perform it, and take upon themselves the responsibility of finishing it if he should prove unable to do so. No one was to set an apprentice or journeyman to work, except in the presence of his master, before he was properly instructed. No one was to take an apprentice for less than seven years. The masters that were chosen to superintend the trade were to oversee that those who worked by the day took for their hire what their work was worth, and asked no outrageous pay. If any objected to be ruled by these persons, his name was to be reported to the mayor, who, with the consent of the aldermen and sheriffs, would imprison or otherwise punish him, 'that no other rebels may take example by him, to be ruled by the good folks of their trade;' and, finally, no one was to take the apprentice or journeyman of another, to his prejudice or damage, until the expiration of their term, under penalty of half a mark for each conviction.—*Builder.*

PROSPECTING IN THE BRITISH POSSESSIONS. We copy the following from the Helena *Herald*: 'We have received a call from Mr John Wales, formerly of Helena, who has just arrived from an extended trip through the Saskatchawan country. Mr Wales left Chicago on April 28th, and after paying a short visit to the Red River settlement, he followed the Saskatchawan to the mountains. The reports of the scarcity of provissions at Fort Garry and vicinity, he confirms. The grasshoppers make a clear sweep of everything in the shape of crops. The buffalo hunters found no game north of the Missouri river, and consequently the unfortunate people are reduced to extreme want, and must perish from hunger unless aid is sent them from the States. At Fort Pitt and Fort Victoria, the settlers had been more fortunate and had saved enough grain to support them during the winter. At Fort Edmonton, terrible hail storms had destroyed everything. There, a number of miners were at work on the river bars. From four to six dollars a day were made with copper plates and quicksilver. After a few days rest here, Mr Wales and party struck out for the mountains through the Blackfoot country, but saw no Indians. During five weeks spent in prospecting, they did not even find a color, though black sand was abundant. Tired of fruitless toil, they went to Mountain Fort on September 1st. There was then about a foot of snow on the ground, and the mud in a newly pointed cabin remained frozen for over a week. After resting for a short time, the party turned their faces towards Montana Found six inches of snow and about an inch of ice at the head of Milk river. The party also prospected the Porcupine Mountains with no success. The journey from the Mountain Fort to Sun river (500 miles) they accomplished in four weeks."

AYER'S CHERRY PECTORAL—the world's great remedy for Colds Coughs and Consumption. *

HOSTETTER'S

CELEBRATED

STOMACH BITTERS!

A PURE AND POWERFUL TONIC

CORRECTIVE AND ALTERATIVE

Of Wonderful Efficacy in Diseases

OF THE

STOMACH, LIVER AND BOWELS.

PROTECTIVE PROPERTIES.

Prevents Fever and Ague and Bilious, Remittent Fevers Fortifies the System against Miasma and the evil effects of unwholesome water; invigorates the organs of digestion and the bowels;

Steadies the Nerves and Tends to Prolong Life.

REMEDIAL PROPERTIES.

Cures Dyspepsia, Liver Complaint, Sick and Nervous Headache, General Debility, Nervousness, Depression of Spirits, Constipation, Colic, Intermittent Fevers, Sea Sickness, Cramps and Spasms, and all complaints of either sex arising from Bodily Weaknesses, whether inherent in the system or PRODUCED BY SPECIAL CAUSES.

As a genuine Tonic, HOSTETTER'S BITTERS produce effects which must be experienced or witnessed before they can be fully appreciated.

Persons of feeble habit, liable to Nervous Attaks, Lowness of Spirits, and Fits of Languor, find prompt and permanent relief from the Bitters. The testimony on this point is most conclusive, and from both sexes.

In districts infested with Fever and Ague, it has been found infallible as a preventive and irresistible as a remedy. Thousands who resort to it if under apprehension of an attack, escape the scourge; and thousand who neglect to avail themselves of its protective qualities in advance, are cured by a very brief course of this marvelous medicine.

Acting as a gentle and painless aperient, as well as upon the liver, it also invariably relieve the Constipation superinduced by irregular action of the digestive and secretive organs.

SOLD EVERYWHERE!!

INFORMATION WANTED

OF SOLOMON HAYS OR WILSON, just heard of in San Francisco, in 1858; also of George Hays or Moore, last heard of in Franklin, Louisiana. Address, ROSA HAYS,

45 Rue de Richelieu.

THE KING OF PERFUMES.

THE VICTORIA PERFUMERY is now adopted by the ELITE of the arstocracy and fashionable world on account of the superior articles for the toilet each of which has been made a speciality.

The new perfumes prepared with the ESSENCE of YLANGYLANG extracted by distillation from the UNONA ODORATISSIMA and imported from the Philippine islands are beyond comparison for their delicacy and sweetness. We therefore recommend the BEAU MONDE to try as a handkerchief perfume.

THE EXTRACT OF YLANGYLANG

AND

THE MANILLA BOUQUET

Besides these, which are the exclusive property of their house, Messrs Rigaud and Co prepare in a most approved and superior manner all the fashionable scents, amongst which we may mention the

Ess Bouquet	**Wood Violet**	**Mignonette**
Jockey-Club	**Marechale**	**Jessamine**
New Mown Hay	**Mousseline**	**Magnolia**
Field Flowers	**Rondeletia**	**Moss-Rose**

RIGAUD'S TOLUTINE

Is an admirable toilet-water, the true talisman of beauty, preserving the freshness of the skin and the fairness of the complexion. It is the perfection of science adapted to the toilet, and is incontestably superior to Eau de Cologne, or the most esteemed of vinegars and the Florida water.

THE MIRANDA HAIR-OIL AND POMATUM.

Is a remarkable preparation which may be called a real treasure for the hair. It is composed of tonic and fortifying compound, and it beautifies and preserves the hair at the same time as it imparts to it a most refreshing pefume.

MIRANDA SOAP,

COMPOSED MAINLY OF THE MILK OF THE LETTUCE AND THE LILY.

A simple comparison of this soap with others sold by the perfumery trade, suffices to prove its superiority. It gives the skin a deigh surface, it lathers abundantly, forming a real milk-bath, and is all that can be desired as to perfume.

DENTORINE

AND TOOTH-PASTE.

THE DENTORINE is a pleasant elixir for the teeth; it perfumes and refreshes the mouth, strengthens the gums and prevents decay.

THE TOOTH-PASTE has made quite a revolution in this class of toilet necessary, and has done away with powders and opiates that are more or less acid and dangerous. A brush passed over it produces a soft and unctuous mucilage that gives the teeth a brilliant whiteness.

THE ROSE POWDER

Preserves the skin from the roughness of the wind and the cold, gives it a soft freshness, and prevents red spots and freckles. It is far superior to rice and starch powders, and it is deliciously perfumed.

Premium Purchasers of Two Articles of RIGAUD & CO., are entitled to receive Gratuitously the

LITTLE MONITOR,

A Guide to the Toilet, with PHOTOGRAPHIC ILLUSTRATIONS.

LANGLEY & CO.

French Medicines,

PREPARED BY

GRIMAULT & CO.

Chemists to H.I.P. Prince Napoleon,

PARIS.

THESE different medicines represent the most recent medical discoveries, founded on the principles of Chemistry and Therapeutics. They must not be confounded with secret or quack medicines, as their names sufficiently indicate their composition; a circumstance which has caused them to be appreciated and prescribed by the Faculty in the whole world. They widely differ from those numerous medicines advertised in the public papers as able to cure every possible disease, as they are applicable only to but a very few complaints. The most stringent laws exist in France with regard to the sale of medical preparations, and only those which have undergone an examination by the **Academy of Medicine** and have been proved efficacious, either in the hospitals or in the practice of the first medicalmen, are authorised by the Government. This fact must be a guarantee for the excellence of **Messrs. Grimault et Co.'s** Medicines.

NO MORE COD LIVER OIL!

Grimault's Syrup of Iodized Horse Radish.

This medicine has been administered with the utmost success in the Hospitals of Paris. It is a perfect substitute for Cod Liver Oil, and has been found most beneficial in **Diseases of the Chest, Scrofula, Lymphatic Disorders, Green Sickness, Muscular Atony, and Loss of Appetite.** It regenerates the constitution in purifying the blood, it being the most powerful depurgative known. It has also been applied with happy results in **Diseases of the Skin.** Further, it will be found to be of great benefit to young children subject to **Humors and Obstructions of the Glands.**

CONSUMPTION CURED!

Grimault's Syrup of Hypophosphite of Lime.

This new medicine is considered to be a sovereign remedy in case of **Phthisis** and other **Diseases of the Lungs.** It promptly removes the most serious symptoms. The cough is relieved, night perspirations cease and the patient is rapidly restored to health.

N.B.—Be sure to see that the signature of **Grimault & Co,** is affixed to the bottle, as this Syrup is liable to imitations.

NO MORE DIFFICULT OR PAINFUL DIGESTION!

DR BURIN DU BUISSON'S

(Laureate of the Paris Imperial Academy of Medicine

DIGESTIVE LOZENGES

This delicious preparation is always prescribed by the most reputed medical men in France in cases of derangements of the digestive organs, such as

Gastritis,
Gastralgia,
Long and Laborious Digestion,
Wind in the Stomach and Bowels,
Emaciation,
Jaundice, and
Complaints of the Liver & Loins

NERVOUS HEADACHE,
NEURALGIA,
DIARRHŒA, DYSENTERY,

INSTANTLY CURED BY

Grimault's Guarana.

This vegetable substance, which grows in the Brazils has been employed since time immemorial to cure **Inflammation of the Bowels.** It has proved to be of the greatest service in cases of **Cholera,** as it is a preventive and a cure in cases of Diarrhœa.

NO MORE COPAIBA OR CUBEBS!

Grimault's Capsules and Liquid Extract of Matico Vegitalis.

Where all other preparations have failed these preparations will always effect a cure. These insure rapid and extraordinary cure of severe recent and chronic cases of private diseases. They are used in the hospitals of Paris by the celebrated Dr Ricard, and found greatly superior to all hitherto known mineral remedies and Copabia and Cubebs. The injection is used in recent, and capsules in more chronic cases.
